# The Ghost Ship

Commissioned by the Gran Canaria Wind Orchestra. Spain. 2017

José Alberto Pina

## THE GHOST SHIP.

The Ghost Ship is based on the SS American Star transatlantic shipwreck. The ship was hit by a heavy storm and when it was being towed, the tug cut the cable for no apparent reason and the American Star went adrift. After several days without being spotted, it turned up on the beach of Garcey, Fuerteventura, where, split in two pieces, became the perfect setting for mysterious events. A work full of energy, mystery and intensity that will lead us through the cabins of this famous ghost ship. The work is commissioned by the Gran Canaria Wind Orchestra.

## ELECTRONIC SOUNDS.

The organization and development of this resource is not an easy task. The experience has given me conducting this work numerous times and with different bands may make my contribution helps. I recommend use two high-powered loudspeakers behind the musicians in the area of percussion and another two speakers behind clarinets and saxophones focused directly to the musicians. The conductor needs monitors in front of him to coordinate everything. Some bands add a subwoofer to give more spectacular sound. Use a good, powerful equipment, a proper equalization and precise volume is as important as having some good musicians. The audio is in stereo. If you prefer, it's possible to use a mono track with a click metronome for the conductor on one channel and the electronic sounds on the other, please ask to Molenaar Edition. Attached basic map for better understanding. The track can be downloaded for free when you purchase the work at Molenaar Edition. I hope you will enjoy this amazing experience.
