F

LE LONG DE LA THUR

Nicolas Jarrige

L'ŒUVRE

«Le Long de la Thur» est une pièce descriptive. Elle propose un voyage tout au long d'une rivière, de la source à l'océan. Ce voyage commence sur les crêtes Vosgiennes, au pied du Rothenbach. La Thur n'est alors qu›un mince filet d'eau courant entre les buissons et les myrtilles. D'autres filets d'eau venant des chaumes environnantes la rejoigne, et bien vite le ruisseau déjà impétueux entre dans la forêt. Le thème de la thur est alors exposé au cors et baryton, (mesure 18) symbolisant les arbres majestueux de la forêt de Wildenstein que la Thur traverse rapidement. Le ruisseau devient torrent, et dans une explosion musicale, l›eau tombe de 23 mètres à la cascade du Heidenbad (mesure 38).

La musique se calme maintenant, comme l'eau qui aborde des terrains plus plats à l'approche du grand lac de Wildenstein. Un thème lent et majestueux évoque les hautes montagnes qui l'entoure, mais aussi la douceur d'un après-midi passé au soleil près de l'eau. (mesure 60)

Soudain la musique devient marquée, martiale, obstinée. Cette partie représente la force de l›eau, et son utilisation dans les usines qui jalonne la rivière. Turbines, moulins, cette force motrice est transcrite en musique par une marche en avant imperturbable. Les percussions et les cuivres y sont particulièrement à l'honneur (mesure 91).

Cette industrialisation connaît une crise avec de nombreuses fermetures d'usine dans la vallée de Thann, les machines s'arrêtent... (mesure 136). Peu à peu le calme revient et on entend plus que l'eau, et les oiseaux. Un thème lent, triste, comme un Choral évoque les usines désaffectées....(mesure 140)

Mais la vie rebondit et aujourd'hui des entreprises s'installent le long de la thur à l'image du parc de Wesserling qui illustre une reconversion réussi. Vous entendrez le thème de la thur revenir, avec beaucoup d'entrain, symbolisant la confiance dans l'avenir (mesure 159)

Après avoir traversé la vallée de Thann, la thur poursuit son odyssée, se jette dans l'Ill, lequel rejoint le Rhin. J'y est représenté ce long voyage par un thème à caractère celtique et dansant (mesure 190).

Le Rhin s'élargit, il devient un fleuve majestueux...(Mesure 232), l'océan approche... tout se dilue (mesure 252) La pièce se finit dans le ressac des vagues, où l'on perçoit une dernière fois le thème de la Thur, très lent, dilué, comme la rivière dans l'océan (Mesure 255).

D

DER LAUF DER THUR

Nicolas Jarrige

DAS WERK

«Der Lauf der Thur» ist ein programmatisches Werk, welches die Reise entlang eines Flusses, von der Quelle bis zum Ocean, beschreibt. Die Reise beginnt bei den Gipfeln der Vogesen, am Fusse von Rothenbach. Die Thur ist ein Rinnsal und fliesst durch Büsche und Heidelbeeren. Nach und nach vereinen sich verschiedene Rinnsale und schon bald rauscht der Bach durch den Wald. Das Thema der Thur, von den Hörnern und Euphonien gespielt (Takt 18), symbolisiert die majestätischen Bäume des Waldes Wildenstein. Der Strom wird kräftig, das Wasser fällt aus 23 Metern Höhe den Wassefall bei Heidenbad herunter (Takt 38). Die Musik beruhigt sich allmählich, das Wasser fliesst nun langsam durch das flache Gelände bis hin zum See von Wildenstein. Ein majestätisches Thema beschreibt die hohen Berge, aber auch die Sanftheit eines sonnigen Nachmittages am Wasser (Takt 60). Nun wird die Musik martial, rhythmisch und hartnäckig. Sie repräsentiert die Kraft des Wassers sowie dessen Verwendung in den Fabriken entlang des Flusses.Die Turbinen und Mühlen der Kraftwerke werden von den Blechbläsern und der Percussion musikalisch dargestellt (Takt 91). Diese Industrie kennt aber auch Krisen, so wurden im Tal von Thann viele Fabriken geschlossen, die Maschinen gestoppt (Takt 136). Stück für Stück beruhigt sich die Musik wieder, es bleibt nichts ausser ruhigem Wasser und singenden Vögel. Ein langsames, trauriges Thema wie ein Choral beschreibt die stillgelegten Fabriken (Takt 140). Aber heute gedeiht die Industrie wieder prächtig, entlang der Thur haben sich unzählige Fabriken niedergelassen. Die Musik erscheint begeisternd, als Symbol für Vertrauen in die Zukunft (bis Takt 159). Nach durchquerung des Tals Thann, vereint sich die Thur mit dem Rhein. Diese lange Reise wird mit einem tänzerischen, fast keltisch anmutendem Thema erzählt (Takt 190). Der Rhein, ein mächtiger, majestätischer Fluss (Takt 232), nähert sich dem Ozean. Noch einmal erscheint das Thema der Thur, sehr langsam, genau wie der Rhein sich in den Wellen mit dem Salzwasser vereint (Takt 252) und im grossen Wasser endet (Takt 255).
